

HEINRICH KIPP WERK

PRODUCT OVERVIEW

TRUST IN KIPP

Manufacturing expertise with family tradition

HEINRICH KIPP WERK has been a quality partner to industry for more than 100 years. We offer a comprehensive product spectrum with more than 65,000 elements in the sectors clamping technology, standard elements and operating parts.

We produce in our own machine shop located in Germany. This guarantees rapid response times and short logistics routes. Customers appreciate our vertical integration and many years of development experience.

Reliability. Durability. Sustainability. This is what our owner managed company has stood for from the very beginning.

OPERATING PARTS | STANDARD ELEMENTS

HEINRICH KIPP WERK is your reliable partner for standard elements and operating parts.

The simple and self-explanatory KIPP LOGIC on the website, CAD databank and catalogue simplifies finding the correct product. Comprehensive service through our customer advisors, engineers and technicians is always available for you. This applies to the standard products from our comprehensive catalogue as well as for individual special solutions.

You are always in safe hands with KIPP. With products you can rely on.

Clamping levers, tension levers, cam levers

Quarter-turn locks, edge protection profiles

Hinges

Swivel feet, levelling feet

Toggle clamps, power clamps

Clamping elements

Spring plungers, indexing plungers, ball lock pins

Magnets

Buffer elements

Level indicators, screw plugs

Grips, knobs

Pull handles, tubular handles, recessed handles

Handwheels, crank handles, position indicators

Tube connectors, profile connectors

Telescopic slides

Latches, snap locks, slam latches

Support elements, locating elements, stop elements

Machine and fixture components

Joints

Scales, scale rings, level vials

Material handling

Tools, workshop supplies

SPECIAL SOLUTIONS

HEINRICH KIPP WERK has extensive production resources. This is why we can produce special solution construction groups and single items at any time that exactly suit customer specifications.

In our machine shop are metal cutting, injection molding and zinc die-casting machines. Our own R&D department and toolmaking workshop ensure a professional realisation of special projects. Completely assembled and, if desired with treated surfaces. Technicians accompany every single project - during the offer preparation, feasibility assessment and all the way through to completion.

Development / Design

Toolmaking

Add-on elements

Fastener elements, accessories

ZERO-POINT CLAMPING TECHNOLOGY

Zero-point clamping system

5-axis module clamping system 80

5-axis module clamping system 50

5-axis module clamping system 138

Locating and clamping systems

VICE CLAMPING TECHNOLOGY

KIPPflexX 5-axis vice
5-axis clamping system compact

3-axis clamping system
5-axis clamping system

Centric vices

NC Vices

Multi-clamping system

Stationary chuck

We offer around 6,000 components in the specialist field of workholding and clamping technology. The systems are of modular design and compatible with each other. This guarantees maximum setup time optimisation for your machine tools.

95% of our standard components are available ex-stock and so can be quickly delivered. Our team of experts are also available should you have any questions. We develop clamping fixtures for small to medium batch work - individually tailored to your projects.

LOCATIONS

HEINRICH KIPP WERK is present worldwide with 12 company branches and more than 50 agencies, and so guarantees a high level of delivery capability internationally. We have a well-developed service network and specialised consultants.
